
Resolution 26 “Combating AMR and Promoting the Prudent Use of Antimicrobial Agents in Animals”

- **OIE Member Countries** follow the guidance of the WHO Global Action Plan (GAP) on AMR, developed with the support of the OIE in the spirit of the “One Health” approach, in particular by developing national action plans…
- The OIE develops a procedure and standards for data quality for collecting data annually from OIE Member Countries on the use of antimicrobial agents in food-producing animals with the aim of creating an OIE global database...

Resolution 36 “Combating AMR through a One Health Approach: Actions and OIE Strategy”

- The OIE actions to be compiled within the OIE Strategy on AMR include:
  - The establishment and the management of a database for the collection of data on the use of antimicrobial agents in animals as well as the development of interpretation indicators
The OIE Strategy on Antimicrobial Resistance and the Prudent Use of Antimicrobials

November 2016

The OIE strategy on Antimicrobial Resistance (AMR) and the Prudent Use of Antimicrobials
Protecting animal health and welfare by supporting global efforts to combat antimicrobial resistance

- Improve AMR awareness and understanding
  - Targeted communication
  - Advocacy materials

- Strengthen knowledge through surveillance and research
  - AMR National Action Plans
  - Monitoring and surveillance systems
  - Report trends in antimicrobial use
  - Emergence of organisms with AMR characteristics

- Support good governance and capacity building
  - Well trained veterinarians

- Encourage implementation of international standards
  - OIE International Standards
    - Science-based
    - & adopted by 180 Member Countries

- Improve animal health and welfare
- Stewardship of antimicrobial products

- Veterinary Services play a critical role
- OIE Strategy

GLOBAL THREAT

ANIMMICROBIAL RESISTANCE
Reporting back to the 73rd Session of the United Nations – June 2019

- **Mapping activities** against the Global Action Plan for Tripartite, other UN agencies, and the wider stakeholder community (NGOs, private sector)

- **Monitoring framework** for Global Action Plan and National Action Plans

- **Stakeholder management** system to provide channels for dissemination of information and coordination of activities

- **Effective advocacy** to retain awareness of AMR at the highest international and national political levels

OIE’s ongoing AMR work programme

1. Monitoring
   – Tripartite database on countries implementation of the GAP and National Action Plans
   – Technical Item 1 on Veterinary Services progress and challenges in the implementation of the OIE Strategy

2. SCAD Work Programme – Standards, Guidelines and the Global Database
   – *ad hoc* Group on AMR (next meeting August 2017)
   – global database (denominator to allow comparison)
   – update of OIE Standards including definitions and List of Veterinary Important Antimicrobials

3. Prudent Use communication campaign to empower veterinarians

4. OIE 2nd Global Conference on AMR and the Prudent Use of Antimicrobials in 2018 (TBC)

5. Global coordination and advocacy through the UNGA IACG
   – Ongoing participation in the Tripartite Secretariat
